Enabling our customers' success is the foundation of KIHOMAC's core mission and path to continued growth

## KI HO MILITARY ACQUISITION CONSULTING

## ABOUT US

KIHOMAC has over 14 years of corporate experience providing professional acquisition, sustainment, modernization engineering, and manufacturing services to the United States Air Force (USAF) and other Department of Defense (DoD) Services and agencies. Our highly skilled team of professionals support all three Air Logistics Complexes (ALCs), including the C-5 program and Diminishing Manufacturing Sources and Material Shortages (DMSMS), A-10, F-16, Intercontinental Ballistic Missile (ICBM), Munitions Handling Unit (MHU), and other Supply Chain and Air Force Sustainment programs. We have proven performance on over 235 prime DoD contracts and task orders, and have managed over 85 subcontractors and vendors. KIHOMAC provides our clients with dedicated, timely, responsive, and affordable solutions to their challenging and complex problems. Since our inception in 2003, KIHOMAC has established an outstanding track record of meeting the performance needs of our US Government customers.

## CONTRACT INFORMATION

- GSA OASIS Pool 3 SB (8a)

## CLIENT BASE

- Department of Defense
- Other Government Agencies
- Commercial

## CAPABILITIES

### Systems & Software Engineering

- Mechanical Systems
- Electrical Systems
- Software Systems
- 3D Modeling/MBD
- System Integration
- Predictive Analysis
- Primary Structure
- Secondary Structure

### Reverse Engineering

- Mechanical Systems
- Assembly Tool Design
- Structural Systems
- Model/Drawing Validation
- Engineering Change Orders
- Report Generation
- Weight Optimization
- Legacy Data Coverage

### Prototyping & Specialty Manufacturing

- Digital Modeling Fabrication
- Assembly Tool Design
- NC Programming
- 3D Printing
- Engineering Liaison
- Composite Tooling
- ME Support
- Material Review Board (MRB)

### Acquisition & Sustainment

- Program Management
- Production Management
- Financial Management
- Tech Data Development
- Data Validation & Verification
- Tech Data Publication
- Design Review
- Test, Evaluation, & Certification
