About Us:

X Technologies is a leading technology services provider for the DoD and has a proven track record of providing a wide variety of services, products, and technology solutions across the life cycle phases of multiple Air Force Weapon Systems. X Technologies has delivered a wide array of system engineering and development to include Program Management (PM), Trade Space and Capabilities Studies, Demonstrations and Test, Hardware and Software (HW/SW) modifications, Fabrication and Manufacturing, and Logistics support for the DoD and various commercial clients since 1998 as both a prime contractor and as a subcontractor. Additionally, we have over 10 years of experience delivering Cyber Security and Information Technology (IT) support to various clients.

Client Base:

- Air Force Cryptologic and Cyber Systems Division (CCSD)
- Air Logistics Centers (ALCs)
- Naval Air Systems Command (NAVAIR)
- United States Marine Corps (USMC)
- Defense Information Systems Agency (DISA)
- U.S. Transportation Command (USTRANSCOM)

Contract Information:

- GSA OASIS SB Pool 3
- GSA IT Schedule 70
- Flexible Information Assurance Acquisition Tool (FIA2T)
