OASIS℠
One Acquisition Solution for Integrated Services

About SSI

SSI's Logistics, Information Technology and Engineering core competencies include more than 20 years of increasingly complex Program Management, Engineering, Integrated Product Support, and Technical services offerings over a broad range of program, platform, and systems support requirements. Since 1997, we have established a reputation for developing professional business relationships focused on; Mission, Client, Employee satisfaction and performance. We are a seasoned prime contractor with years of practice leveraging our ISO Quality Processes designed for managing large and small subcontractor teams on highly complex requirements in support of large DoD Organizations for Cost, T&M, FFP type contracts.
