ABOUT US:

Caelum Research Corporation, an award-winning, woman-owned small business (WOSB), headquartered in Rockville, MD, was founded in 1987. Since then, we have excelled in our core competencies of information technology, systems engineering and program management, logistics, cyber security/information assurance and data/information management. Through our certified procedures, we effectively standardize and streamline performance, operation and management processes. We provide trained and highly qualified technical and managerial personnel in supporting various US Government agencies and commercial clients. Caelum has been recognized over the years by many awards and certifications for excellent contract performance, technical achievement, corporate success, and organizational quality managements. Currently, Caelum supports our clients at multiple locations over the Continental U.S. (CONUS) and overseas (OCONUS).

Our Values include Integrity, Teamwork, Innovation, and Quality. Our Business Strategy is to understand our client's mission, focus on our client's needs to maximize customer satisfaction, provide cost effective solutions, and to establish a reputation as a reliable provider of quality services.
